South Carolina · Available for remote work
delaneymills@gmail.com

LinkedIn · GitHub · YouTube · Instagram

Web and creative-operations professional with experience building interactive websites, publishing commercial web content, writing technical documentation, and coordinating distributed teams. Brings a background in community education, design and international touring, alongside an active practice in AI-assisted software development.

Experience

Freelance Webmaster - October 7 Sales

January 2026-present

- Design and maintain WordPress web materials for a wholesale agency.
- Create Mailchimp newsletters, Canva sales materials, and catalog designs.
- Troubleshoot technical issues and support day-to-day digital work.

Community Manager to Chief Operating Officer - Omakasea

Approximately 2020-2023 · Remote / Bali

- Coordinated work across leadership, technical and creative teams, including launches, technical documentation writing, partnerships and community programs.
- Co-hosted Twitter Spaces and helped grow the CEO's account from 0 to 47,000 followers.
- Built the user-facing PokeGAN website in RPG Maker MZ, including maps, adapted sprites, dialogue and event logic; collaborated with the backend and blockchain team.
- Named the Gooley creatures and wrote ETH Gobblers technical documentation; contributed community-informed product suggestions.
- Wrote and led an NFT workshop and provided recurring one-to-one education for learners with varied technical experience.

Field Organizer - Bernie Sanders for President

October 2019-April 2020 · South Carolina

- Organized voter outreach and volunteer activity across Kershaw and Sumter counties.
- Recruited, trained, scheduled, and supported volunteers; coordinated community events and local leaders.

Owner / Tour and Production Manager - The Marigold Group LLC

August 2012-October 2018

- Led domestic and international touring programs for Elvis Depressedly.
- Managed travel, venues, contracts, budgets, production needs, merchandise, and fixed deadlines.
- Coordinated creative, commercial, promotional, and logistical work across tours and release cycles.

Selected work

- **Creative software:** browser instruments, audiovisual tools, and OBS production systems; concept, interaction design, and AI-assisted implementation.
- **PokeGAN / Geomint:** RPG Maker frontend, interaction design and game-event integration with team-provided services.
- **ETH Gobblers:** technical documentation writing, Gooley naming and community-informed product suggestions.
- **Omakasea Launchpad:** operations consulting and artist recruitment.
